PERSONAL PROJECTS

> SpeedNews

I made this app using News Application Programming Interface(API).

It is a react-based app, also an example of a single-page application.

> Portfolio Site

Well, I designed And created my own portfolio website with outstanding Front-end.

This Portfolio site is well-designed including features like interactive layout and prominent animations all over the site.

> Newsletter

Built a back-end app with includes Mongodb and Server side Programming.

I have created a well-organized sign-up page to list users in the application.

> Clone(practice)

Built clones of various well-known sites to make my frontend skills better and better.

SKILLS

React Node JS ES6 CSS

Bootstrap Frontend Development JQuery

ACHIEVEMENTS

4 star Coder at Hackerrank

Active Competitive programmer on various platforms
